

Job Description

Title: Power BI Developer Cost Ctr: 708
Work Location: Addison, TX Position Status: Full-time Part-time
Division & Department: Product Management
Position Reports to: CSO

JOB SUMMARY

We are looking for a Microsoft Power BI developer to join our team. This role will require enterprise level Power BI experience and responsibilities include analyzing requirements, developing technical design specifications, and developing applications utilizing the MS BI Stack. The candidate will have experience engaging with end-users to discern their data consumption and reporting needs, including UI/UX design. Working in smaller Business Intelligence/Data Warehousing Environments utilizing Microsoft SQL Server and its' business suite of products, the candidate will pull data sets from disparate data sources to provide information to business stakeholders.

SUMMARY OF ESSENTIAL JOB FUNCTIONS

The essential functions listed below are representative of the functions that must be performed in order to satisfactorily fulfill the purpose of this job. Additional functions and duties may be assumed or assigned from time to time.

- Work with business unit to gather requirements for report generation.
- Work with business customers and IT SME's to define BI requirements.
- Conceptualize, design, develop, and deploy BI solutions.
- Strong knowledge of DAX and MDX languages.
- Hands-on experience working with numerous data sources both structured and unstructured.
- In-depth understanding of database management systems, online analytical processing (OLAP) and ETL (Extract, transform, load) framework
- Maintain standards for delivery, quality, and visual presentation of delivered BI solutions.
- Prior experience with development of enterprise level reports.
- Training end users on new reports and dashboards.

KNOWLEDGE, SKILLS AND ABILITIES [education, certification, experience, general skills]

To perform this job successfully, an individual must be able to perform each essential function satisfactorily. The requirements listed below are representative of the knowledge, skills and/or abilities required to satisfactorily perform the essential functions of this job.

- Bachelor's degree from an accredited university or college in Computer or Data Science, Mathematics, Statistics, or related field.
- Experience with MS Business Intelligence stack with strong emphasis on Power BI (SSAS, SSRS).

Job Description

- Experience developing analytics and reports using multiple analytical, visualization and reporting tools including PowerBI, SSRS and Tableau,
- Experience and understanding of data platform services in Microsoft Azure.
- Analytical skills with the ability to collect, organize, analyze, and disseminate significant amounts of information with attention to detail and accuracy
