PROTECT YOUR BRAND AND YOUR REVENUE

The threat of purchasing or receiving counterfeit products is higher than ever, due to advances in digital and other printing technologies. Proper risk assessment and intricate security measures are now required to detect and deter the growing threat of product and document fraud. Don't be overwhelmed by the volume of security options available. From academic institutions protecting their graduates to governments protecting their citizens, Authentix services an array of clients. Unlike other printers, we leverage patent-protected print techniques like our one-pass production capabilities along with skilled designs to produce the most cost-effective, easy-to-deploy, innovative security solutions.

Leveraging our sophisticated printing techniques adds layers of complexities making it virtually impossible to successfully duplicate critical documents or products. You can be confident in a simplified approach to easily detect and deter counterfeiting practices.

● PRODUCED BILLIONS OF TAX STAMPS TO PROTECT PRODUCTS

● PRINTED MILLIONS OF SECURE DOCUMENTS

SECURE BY DESIGN

Highly skilled designers produce complex artwork used in conjunction with our unique production methods for customised product security solutions. Our clients can be confident in a security solution that is unmatched by counterfeiters because of the attention to detail we display within each bespoke design technique with a clear goal to prevent fraud. Our exclusive patents and production methods keep us one step ahead of other security printers, ensuring that our client receives the highest possible standard of security along with world-class service.

PUT COUNTERFEITERS OUT OF BUSINESS

Authentix Security Print Solutions is focused on continuous improvement in production engineering and design to ensure that our clients have the most cost-effective solution to meet their needs. We have developed a variety of unique printing techniques to provide secure solutions for governments, industry and commerce throughout the world. These developments offer our customers maximum protection against fraud and counterfeiting.

SECURITY PRINT SOLUTIONS

ABOUT OUR COMPANY

SPS is one of the world's leading security print solution providers. For nearly 40 years, we have expanded our expertise in printing custom-designed security features to prevent fraud of critical legal documents, specialised certificates and commercial products. Our commitment to fraud prevention is proven through key patents in security design and production engineering, along with numerous certifications in the area of environmental, quality assurance and security printing processes. Our clients thrive because of a partnership approach and sector expertise leveraging track and trace solutions, in-service management and fulfillment to ensure a safe marketplace rid of counterfeit goods.

ABOUT OUR PARENT COMPANY

As the authority in authentication solutions, Authentix thrives in supply chain complexity. Authentix provides advanced authentication solutions for governments, central banks and commercial companies, ensuring local economies grow, banknote security remains intact and commercial products have robust market opportunities. The Authentix partnership approach and proven sector expertise inspires proactive innovation, helping customers mitigate risks to promote revenue growth and gain competitive advantage.
